When LeadSniper Pro flags a business with 'NO_WEBSITE', 'SITE_UNREACHABLE', or 'NO_SSL', here is how you fulfill their brand-new, mobile-optimized local website in under 90 minutes with zero recurring hosting cost:

1. EXTRACT ASSETS (10 Mins): Pull their business name, address, phone number, top 5 Google reviews, and photos directly from their Google Maps listing.
2. GENERATE THE INDUSTRY LANDING PAGE (30 Mins): Use our pre-tested Local Conversion Architecture (Sticky 'Click-to-Call' header, Above-the-Fold Instant Quote/Booking Form, 5-Star Google Review Carousel, Service Area Map, and FAQ).
3. DEPLOY WITH FREE HTTPS SSL (15 Mins): Deploy directly to Vercel or Cloudflare Pages ($0/mo forever) with automatic SSL certificates and connect their domain.

Over 75% of local businesses on Google Maps fail the 'hasChatOrBooking' check in LeadSniper Pro. When a homeowner has a roof leak at 7 PM or a patient wants to book teeth whitening on Sunday, nobody answers the phone.

You fulfill this in 45 minutes by embedding a single `<script>` tag on their existing website (WordPress, Wix, Squarespace, Webflow, or custom HTML):

? Greets visitors within 4 seconds with a localized prompt.

? Answers common pricing/insurance/hours FAQs using their business info.

? Captures the visitor's Name + Mobile Number + Requested Time and forwards it instantly to the owner via SMS/Email/WhatsApp.

45-MINUTE DEPLOYMENT CHECKLIST (CHAT & PIXEL REMEDIATION)

```
STEP 1: Configure widget with Business Name, Phone, Hours, and Top 3 Services.
STEP 2: Connect instant lead webhook -> Owner's WhatsApp / SMS / Email.
STEP 3: Install Meta Pixel & Google Tag Manager container in `<head>` (takes 5
mins):
        - Fire `Lead` event when the chat/booking form is submitted.
        - Fire `Contact` event when any `tel:` phone link is clicked on mobile.
STEP 4: Re-run LeadSniper Pro on their URL ? all 6 Audit Rows now show green
'PASSED'!
        Send the updated green Audit PDF to the client as proof of completion.
```

4. System #3: The Automated 5-Star Google Review Booster

Whenever LeadSniper Pro flags 'LOW_REVIEWS' (<25 reviews or <4.3 stars), this is the easiest service on earth to sell because every business owner knows Google Reviews directly equal phone calls.

HOW THE 'REVIEW REACTIVATION & FIREWALL' WORKS:
1. Export the client's past 100-300 customer contacts (CSV from their invoicing/booking software).
2. Send a friendly, personalized SMS/WhatsApp check-in asking for a 1-to-5 rating.
3. THE FIREWALL: Anyone who taps 4 or 5 stars is routed directly to the client's Google Maps 'Write a Review' link. Anyone who taps 1-3 stars is routed to a private feedback form sent to the owner?preventing public negative reviews!

COPY-PASTE CUSTOMER REVIEW REACTIVATION MESSAGE

```
SMS / WhatsApp Message Sent to Past Customers:
-----------------------------------------------
"Hi [Customer First Name]! It's Dr. [Name] & the team at [Business Name].
Thank you again for choosing us recently! As a local business in [City], your
feedback
means the world to us. Do you have 20 seconds to share your experience on Google
here?
? [Direct Google Maps Review Shortlink]"

BENCHMARK RESULTS:
? 200 past customers messaged -> 28 to 45 new 5-star Google reviews within 7 days.
? Client immediately jumps up the local Google Map Pack.
```

Never start work without collecting payment (either 100% upfront for the $997 48-Hour Setup, or 50% upfront / 50% on live delivery within 48 hours) and sending this clean 1-page agreement.

Below is the exact plain-English Service Agreement template you can copy into Google Docs and send alongside your payment link.
