99% of freelancers and agencies fail at cold outreach because they send vague, self-centered promises like 'We help dentists get more leads with AI and Facebook Ads.' Local business owners delete those emails in 2 seconds.

With LeadSniper Pro, you never send a generic pitch. Instead, you filter exclusively for businesses with a verifiable, publicly visible 'Broken Funnel Leak' on Google Maps:

1. NO WEBSITE OR BROKEN SSL: They are losing 60%+ of high-intent Map searchers.
2. NO 24/7 BOOKING OR CHAT WIDGET: 62% of local service inquiries happen after 5:00 PM.
3. NO META PIXEL OR GOOGLE TAG: They are paying for traffic and letting 96% leave untracked.
4. REVIEW VELOCITY GAP (<25 Reviews or <4.3 Stars): They are invisible in the Google 3-Pack.

Your outreach rule is simple: Point out the single highest-scoring leak, attach or offer the 1-Click Audit PDF from LeadSniper Pro, and ask permission to show them the 48-hour fix.

CORE CONVERSION FORMULA: THE 3-SENTENCE 'AUDIT DROP' OPENER

```
Sentence 1 (Specific Observation):
"Hi [Owner/Team], I was looking at top [Category] businesses in [City] on Google
Maps
and noticed [Business Name] [Specific Leak Found by LeadSniper Pro]."

Sentence 2 (Quantified Cost of Inaction):
"Usually, that single gap causes about 15 to 30 high-intent callers per month to
bounce to the next competitor in the Map Pack."

Sentence 3 (Zero-Friction Value Offer):
"I generated a 1-page Digital Funnel Audit PDF for [Business Name] showing the exact
fix ? mind if I send it over for you to review?"
```

Use these word-for-word scripts when emailing leads exported from LeadSniper Pro. Keep subject lines lowercase and hyper-specific to their business name so open rates stay above 65%.

PRO TIP: Never put links or attachments in Email #1 to protect deliverability. When they reply 'Sure, send it over', reply with the 1-Page Audit PDF generated by LeadSniper Pro's '1-Click Client Audit PDF' button and a link to book a 10-minute walkthrough.

COPY-PASTE COLD EMAIL SCRIPTS (LEAK #1 & LEAK #2)

Businesses that already have a decent website still suffer from two massive, invisible leaks that LeadSniper Pro detects automatically:

1. NO META RETARGETING PIXEL: Every visitor who clicks their Google Maps listing, checks prices, and leaves is lost forever because they have no retargeting pixel installed.
2. LOW GOOGLE REVIEW COUNT (<25 REVIEWS): In local services, the #1 factor determining who gets 70% of the calls is who appears in the top 3 of Google Maps with the most 5-star reviews.

4. WhatsApp, SMS & Instagram DM High-Response Frameworks

When LeadSniper Pro extracts a mobile phone number or an Instagram handle, your response rate jumps from 8% (email) to 28%-40% (WhatsApp / Instagram DM).

GOLDEN RULE FOR WHATSAPP & INSTAGRAM DMs:
Never send a wall of text. Send a 2-line text opener first, wait for them to reply (or view it), and then drop a screenshot of their LeadSniper Pro 1-Page Audit Report.

WHATSAPP & INSTAGRAM DM SCRIPTS (35%+ REPLY RATE)

If you want to close a $1,000-$2,500 client within 24 hours of buying LeadSniper Pro, pick 20 leads with a Leak Score above 75, generate their 1-Page Audit PDF, and call the phone number directly.

Combine calls with the 4-Touch Follow-Up Sequence below: 72% of local business owners buy on Follow-Up #2, #3, or #4 simply because they were busy on site when Message #1 arrived.

45-SECOND COLD CALL OPENER + 4-TOUCH FOLLOW-UP SEQUENCE

When a business owner replies to your audit PDF and hops on a 15-minute call (or replies over WhatsApp/Email), you simply walk them through the 6 rows of the LeadSniper Pro Audit PDF.

Because the Audit PDF shows objective, undeniable facts (Passed vs. Critical Leak), you never have to 'hard sell.' You simply state the flat 48-hour setup price ($997) + optional $297/mo maintenance.
